# Volume 12 1986–1987 Table of Contents

## No. 1 A Symposium in Honor of Marcel Bessis

pp. 1–280 (Published December 1986)

Foreword: MARCEL BESSIS: Perceived Through the Eyes of His Friends . . 1

HOWARD C. MEL: GUEST EDITORIAL: Reflections on Science, Technology, Beauty and Human Welfare: A Tribute to Marcel Bessis . . . . . 7

M.A. LICHTMAN, P. SANTILLO: Red Cell Egress from the Marrow:? Vis-a-Tergo . . . . . 11
M.J. MURPHY, JR: Commentary . . . . . 21

B.S. BULL, R.S. WEINSTEIN, R.A. KORPMAN: On the Thickness of the Red Cell Membrane Skeleton: Quantitative Electron Microscopy of Maximally Narrowed Isthmus Regions of Intact Cells . . . . . 25

E. EVANS, N. MOHANDAS: Developments in Red Cell Rheology at the Institut de Pathologie Cellulaire . . . . . 43

E. BEUTLER, T. GELBART: The Mechanism of Removal of Leukocytes by Cellulose Columns . . . . . 57

W. GRONER, J. BOYETT, A. JOHNSON, M. SCANTLEBURY: Variability of Erythrocyte Size and Hemoglobin Content Observed in Man and Four Selected Mammals . . . . . 65

E.R. JAFFÉ: Enzymopenic Hereditary Methemoglobinemia: A Clinical/Biochemical Classification . . . . . 81
S.L. SCHIRER: Why Does the Thalassemic Red Cell Die? Commentary . . . 91
M.R. CLARK: Why Does the Normal Red Cell Die? Commentary . . . . 99

G. BRECHER, S.L. BEAL, M. SCHNEIDERMAN: Renewal and Release of Hemopoietic Stem Cells: Does Clonal Succession Exist? . . . . . 103
H.E.M. KAY: Commentary . . . . . 113
H.S. MICKLEM: Commentary . . . . . 119
G. BRECHER, S.L. BEAL, M. SCHNEIDERMAN: Reply to Commentary . . . . 127

E. CRONKITE: Benzene Hematotoxicity and Leukemogenisis . . . . . 129

D.W. ROSS, K.B. PRYZWANSKY, M. PRENANT, G. DENT: Leukemic Cell Maturation: Variability of the Myeloid Leukemic Cell Phenotype . . . . . 139

M.R. CLARK: Why Does the Normal Red Cell Die? Commentary . . . . 99

G. BRECHER, S.L. BEAL, M. SCHNEIDERMAN: Renewal and Release of Hemopoietic Stem Cells: Does Clonal Succession Exist? . . . . . 103
H.E.M. KAY: Commentary . . . . . 113
H.S. MICKLEM: Commentary . . . . . 119
G. BRECHER, S.L. BEAL, M. SCHNEIDERMAN: Reply to Commentary . . . . 127

E. CRONKITE: Benzene Hematotoxicity and Leukemogenisis . . . . . 129

D.W. ROSS, K.B. PRYZWANSKY, M. PRENANT, G. DENT: Leukemic Cell Maturation: Variability of the Myeloid Leukemic Cell Phenotype . . . . . 139

L.S. KAPLOW: The Relationship of Myeloperoxidase Activity to Neutrophil Maturity and Other Hematologic Indicators of Infection . . . . . 153

S.E. MALAWISTA, G. VAN BLARICOM: Phagocytic Capacity of Cytokineplasts from Human Blood Polymorphonuclear Leukocytes . . . . . 167
K.B. PRYZWANSKY: Commentary . . . . . 175
S.E. MALAWISTA, G. VAN BLARICOM: Reply to Commentary . . . . . 177

P.L. LACELLE: Alterations by Leukocytes of Erythrocyte Flow in Microchannels . . . . . 179

W.M. ISENBERG, R.P. MCEVER, M.A. SHUMAN, D.F. BAINTON: Topographic Distribution of a Granule Membrane Protein (GMP-140) that is Expressed on the Platelet Surface after Activation: An Immunogold-Surface Replica Study . 191

M. TAVASSOLI: Modulation of Megakaryocyte Emperipolesis by Phlebotomy: Megakaryocytes as a Component of Marrow–Blood Barrier . . . . . 205

S. EBBE, M. BENTFIELD-BARKER, C. ADRADOS, D. CARPENTER, C. MORTENSEN, T. YEE, E. PHALEN: Functionally Abnormal Stromal Cells and Megakaryocyte Size, Ploidy, and Ultrastructure in Sl/Sl$^d$ Mice . . . . . 217

S.-I. KURIYA, M.J. MURPHY, JR.: The Humoral Regulation of Megakaryocytopoiesis and Platelet Production In Vivo . . . . . 233

J. KURANSTIN-MILLS, L.S. LESSIN: Cellular and Rheological Factors Contributing to Sickle Cell Microvascular Occlusion . . . . . 249

B.S. BULL: Editor: Publishing and Being Published in the Hematologic Literature–A Discussion on *Blood Cells* Publishing Policies . . . . . 271

## Chronic Lymphocytic Leukemia

pp. 281–504 (Published June 1987)

B. JAKŠIĆ, B. VITALE: Guest Editorial: Chronic Lymphocytic Leukemia: A Model for Studying Immunoproliferative Diseases . . . . . 281

E.P. CRONKITE: An Historical Account of Clinical Investigations on Chronic Lymphocytic Leukemia in the Medical Research Center, Brookhaven National Laboratory . . . . . 285

M. DOMINIS, B. JAKŠIĆ: Clinical Relevance of Peripheral Blood Lymphocyte Morphology and Lymph Node Histology in Chronic Lymphocytic Leukemia . 297

E. Montserrat, C. Rozman: Bone Marrow Biopsy in Chronic Lymphocytic Leukemia: A Review of Its Prognostic Importance . . . . . 315
Discussion . . . . . 323

K.R. Rai, A. Sawitsky: A Review of the Prognostic Role of Cytogenetic, Phenotypic, Morphologic, and Immune Function Characteristics in Chronic Lymphocytic Leukemia . . . . . 327
Discussion . . . . . 335

J.V. Melo, D. Catovsky, D.A.G. Galton: Chronic Lymphocytic Leukemia and Prolymphocytic Leukemia: A Clinicopathological Reappraisal . . . . 339
Discussion . . . . . 348

K. Isaković, G. Lenert: Reactivity of B Leudemic Lymphocytes of Patients with Chronic Lymphocytic Leukemia to PWM and PHA . . . . . 355
Discussion . . . . . 363

E. Thiel, K. Pachmann, B. Dörken, G. Gaedicke, H.W.L. Ziegler-Heitbrock: Phenotypic Modulation of Chronic Lymphocytic, Prolymphocytic, and Lymphoplasmacytic Leukemia Cells by TPA: Induction of TRAP Isoenzyme 5 and HD6 (CD22) Antigen and Enhancement of IgM Messenger RNA . . . 365
Discussion . . . . . 380

G. Dighiero, J.-L. Binet: Does the CLL B Lymphocyte correspond to expansion of an Immature B Clone or to Expansion of a Distinct Subpopulation of B Cells? . . . . . 385
Discussion . . . . . 396

R. Foa, M.T. Fierro, M. Giovarelli, P. Lusso, G. Benetton, M. Bonferroni, G. Forni: Immunoregulatory T-Cell defects in B-Cell Chronic Lymphocytic Leukemia: Cause or Consequence of the Disease? The Contributory Role of Decreased Availability of Interleukin 2 (IL-2) . . . . . 399
Discussion . . . . . 410

Y. Gazitt, A. Polliack: Phorbol Ester Induction of Plasmacytoid and Hairy Cell Leukemia Features in B-Type Lymphocytic Leukemias: The Relation to B-Cell Differentation and Maturation . . . . . 413
M.A. Lichtman, C.N. Abboud: Commentary . . . . . 437

B. Benković, B. Burek, B. Jakšić, B. Vitale: Modulation of Chronic Lymphocytic Leukemia (CLL) Lymphocyte Phenotypes by In Vitro Incubation with 1 Thymosin . . . . . 441
D. Zucker-Franklin: Commentary . . . . . 453

N. Viñolas, J.C. Reverter, A. Urbano-Ispizua, E. Montserrat, C. Rozman: Lymphocyte Doubling Time in Chronic Lymphocytic Leukemia: An Update of Its Prognostic Significance . . . . . 457
J.L. Spivak: Commentary . . . . . 465

J.M. Ribera, N. Viñolas, A. Urbano-Ispizua, T. Gallart, E. Montserrat, C. Rozman: "Spontaneous" Complete Remissions in Chronic Lymphocytic Leukemia: Report of Three Cases and Review of the Literature . . . . 471
T. Han: Commentary . . . . . 481

P. Travade, C. Chastang, G. Dighiero, J.-L. Binet: Cooperative Group on CLL of Societe Française D'Hematologie: New Trends in CLL Treatment . . 485
G. DeRossi: Commentary . . . . . 497
M. Brugiatelli: Commentary . . . . . 499
E. Montserrat, ESTAPE (for the PETHEMA Group): Commentary . . . 501

**Announcement** . . . . . 503

## No. 3 Free Communications

pp. 505–662 (Published June 1987)

K.B. Pryzwansky: Review: Human Leukocytes as Viewed by Stereo High-Voltage Electronmicroscopy . . . . . 505

T. Furukawa, H. Ikeda, J. Suda, M. Egucki, T. Takaoka, T. Suda: Cinemicrography of Human Erythroblasts–Direct Measurement of Generation Time and Delineation of Their Pedigrees . . . . . 531
D.W. Ross: Commentary: The Life History of Individual Blood Cells . . . 541

K.R.P. Rao, A.R. Patel: Erythrocytic Ecdysis in Smears of EDTA Venous Blood in Eight Patients with Sickle Cell Anemia . . . . . 543
R.E. Waugh: Commentary . . . . . 551

R.A. Dodson, T.R. Hinds, F.F. Vincenzi: Effects of Calcium and A23187 on Deformability and Volume of Human Red Blood Cells . . . . . 555
E. Orringer: Commentary . . . . . 563

J.F. Hoffman: On the Mechanism and Measurement of Shape Transformations of Constant Volume of Human Blood Cells . . . . . 565
H.J. Meiselman: Commentary . . . . . 587

D.C. Patwa, D.J. Abraham, T.C. Hung: Design, Synthesis, and Testing of Potential Antisickling Agents. 6. Rheologic Studies with Active Phenoxy and Benzyloxy Acids . . . . . 589
J. Stuart: Commentary . . . . . 599

J.M. Radley, M.A. Hartshorn: Megakaryocyte Fragments and the Microtubule Coil . . . . . 603
J.G. White: Commentary . . . . . 611

M. Rosendaal, S. Villa, C. Hooper: Correspondence Between the Development of Hemopoietic Tissue and the Time of Colony Formation by Colony-Forming Cells . . . . . 615
G. Brecher: Commentary . . . . . 625
M. Rosendaal: Reply to Commentary . . . . . 627

M. Rosendaal, J. Adam: Haemopoietic Progenitors in Different Parts of One Femur Perform Different Functions During Regeneration . . . . . 629
G. Brecher: Commentary . . . . . 641
M. Rosendaal, J. Adam: Reply to Commentary . . . . . 645

E. Bartha, E. Oláh, J.G. Szelényi, S.R. Hollán: Characterization of "Fetal-Type" Acetylcholinesterase in Hemin-Treated K562 Cell Culture . . 647
R.E. Kaufman: Commentary . . . . . 653

R.B. Shillingstad, H.A. Ragan: Cellulase Slide Preparation of Methylcellulose Cultures of Hemopoietic Cells . . . . . 657
J. Breton-Gorius: Commentary . . . . . 661
